Product Description

Riccar SupraLite Entry Lightweight Vacuum - R10E

The R10E entry-level SupraLite is built to clean floors - all of them. We built the Entry model with the critical features for the best floor cleaning possible, but none of the drills. The Entry model features a wood brushroll, a 30-foot cord, durable plastic wheels, and a paper bag. With its Gold Seal of Approval from the Carpet and Rug Institute, rest assured you won't sacrifice performance for an attractive price. First introduced more than a decade ago, the SupraLite Entry continues to be a terrific value for years of remarkable floor cleaning.
